

QBE Fleet Risk Management Solutions

Reports - Accident trends & analysis

QBE's reporting system provides the most comprehensive motor accident analysis reports. These are available on demand and can be tailor made to suit your needs.

With a high level of detail yet simple to read and understand, QBE fleet solutions reports allow you to analyse every trend that can be measured from claims data collected.

You will know who is having a claim, where and when they are happening, why are they happening, what they are hitting and much more. Everything you need to know to make informed decisions is available to you through these reports.

This allows you to implement control measures, monitor performance and control costs.
