

QBE Fleet Risk Management Solutions

Management engagement

QBE will work with you to identify and develop workable solutions for your company's specific vehicle and driver management risks.

We will provide you with the tools to reduce your fleet operating costs and help protect your drivers while on the road.

Key features

- Identify improvements to existing risk management
- Face to face interaction
- Provide management initiatives and procedures such as induction programs for new drivers, driver manuals and training
- Improve environmental aspects including maintenance and safety inspections, in vehicle storage plus driver and vehicle selection
- Driver attitudes and behaviour improvement initiatives, developing a culture of safety within your company
